## **DETAILED ACTION**

### ***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-11, drawn to a product, classified in class 428, subclass 212.
  - II. Claims 12-14, drawn to a product, classified in class 428, subclass 156.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I and II are deemed separate and distinct invention that have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions are group 1 drawn to a product containing raised protrusions and group II drawn to a tissue paper that conveys greater than one communication.
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.
4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
